# Project Portfolio Report

Hello, Myself Sreedham Deb. I am a full stack web developer. I'm a very committed, disciplined, and self-learning person looking to broaden my horizons in the web development industry. I'm a ReactJS and JavaScript pro. I've completed a few projects successfully and used React to build a portfolio.

**Programming Language:** HTML, CSS, JavaScript, React. (React-Router-DOM, Font awesome, React-awesome-reveal, React-Circular-Progress)

**Home:** There are 6 Sections in the home page. First section has 3 information for me. These are my picture, short description and social media icon. If you click the any icon then you see the new tab and go to that link. The next sections in sequence are Skills, Portfolio, Blogs, Get in Touch, Contact with me and footer. There is also messenger option and any user can send message from this icon. This icon is from top to bottom left in the site.

**About me:** Actually, this part is all about myself in details. In the bottom also added resume part.

**Resume:** In this part, I use positive word to describe myself. Besides, I describe about CV.

**Skills:** I have added some skills with Percentwise (%). Users can see my skills with percent. If user see the any skill with cursor, then change the background It's called Hover.

**Projects:** I have added some projects. These projects are also included project Screen Shot, Short Description, Live link and Code Link in GitHub.

**My Blog:** I wrote some blog in the medium website. These blogs are added in the Blog option. Users can see the blog title in this page. If users can see the blog, then click the Details Button.

**Contact:** If users can want to send message from me then this option is very helpful. Users entered the name, email and write message then click the send message button.

**Download CV:** If users click this option, then see my CV.
